ARCHISHMAN KAR

FRONT-END DEVELOPER

ABOUT ME

I am a passionate Frontend Developer eager to begin my professional journey in web development. I have hands-on experience working with React.js, Tailwind CSS, and Node.js, and I enjoy creating responsive designs and interactive user interfaces. I have also worked on projects involving protected routes and REST API integration, which helped me understand secure and scalable application development. As a fresher, I am motivated to keep learning, adapt quickly to new challenges, and contribute effectively to building user-friendly digital solutions.

EDUCATION

Bachelor of Computer Appplication

2022-2025

- Acharya Institute of Graduate Studies
- Soladevanahalli, Bengaluru

Secondary and Higer Secoundary

2018-2022

- Hijli High School
- Kharagpur, West Bengal

SKILLS

- Time management
- Communication
- Critical thinking
- Analytics
- Visualization
- Communication
- Project management
- Team Work
- Efficient resouce
- Digital marketting
- Instagram marketting
- Facebook ads run
- Office management
- Networking
- Troubleshooting
- Tableau
- Proficient in AI usage
- System configuration
- REST api
- REACT js
- tailwind css
- MongoDB
- SQL
- Node.js

PROJECTS

E-commerce Website building and mangament

I developed a full-stack e-commerce website designed to offer a seamless online shopping experience for users. The platform includes user authentication, product browsing, cart management, order placement, and secure payment integration.

The project combines a responsive front-end built with HTML, CSS, and JavaScript with a robust back-end powered by Node.js, Express, and a MongoDB database. Admin functionalities like product management, order tracking, and customer support tools are also integrated, ensuring smooth business operations.

Movie-finder-app (React+Tailwind)

- Built a responsive React + Vite movie finder using OMDB REST API with debounced search and error handling.
- Added Wishlist with localStorage, mobile-friendly UI, sticky modal close, and genre quick-filters.
- Tech: React, Vite, Tailwind CSS, JavaScript (ES6+), fetch, environment variables (VITE_).
- *Designed mobile-first UI with compact grids, genre quick-filters, and fallbacks*
- *Improved reliability with error states, loading indicators, and empty results UX.*
- *Stack: React, Vite, Tailwind CSS, JavaScript (ES6+), REST API, Git.*

INTERNSHIP (February 22nd , 2025 - March -22nd , 2025)

EDUPHEONIX SOLUTIONS PVT LTD
(FULL-STACK DEVELOPER)

During my internship at EDUPHEONIX SOLUTIONS, I had the opportunity to learn and work on developing full stack web applications using JavaScript, Node.js, and MongoDB. The internship focused on both frontend and backend development, covering essential concepts such as RESTful APIs, server-side scripting, and database management with MongoDB.

- Implemented a full-stack application that performs 60% faster" and "reduced code complexity by 45%.

- Learned how to fast-track the process of software development in the most efficient way.
